

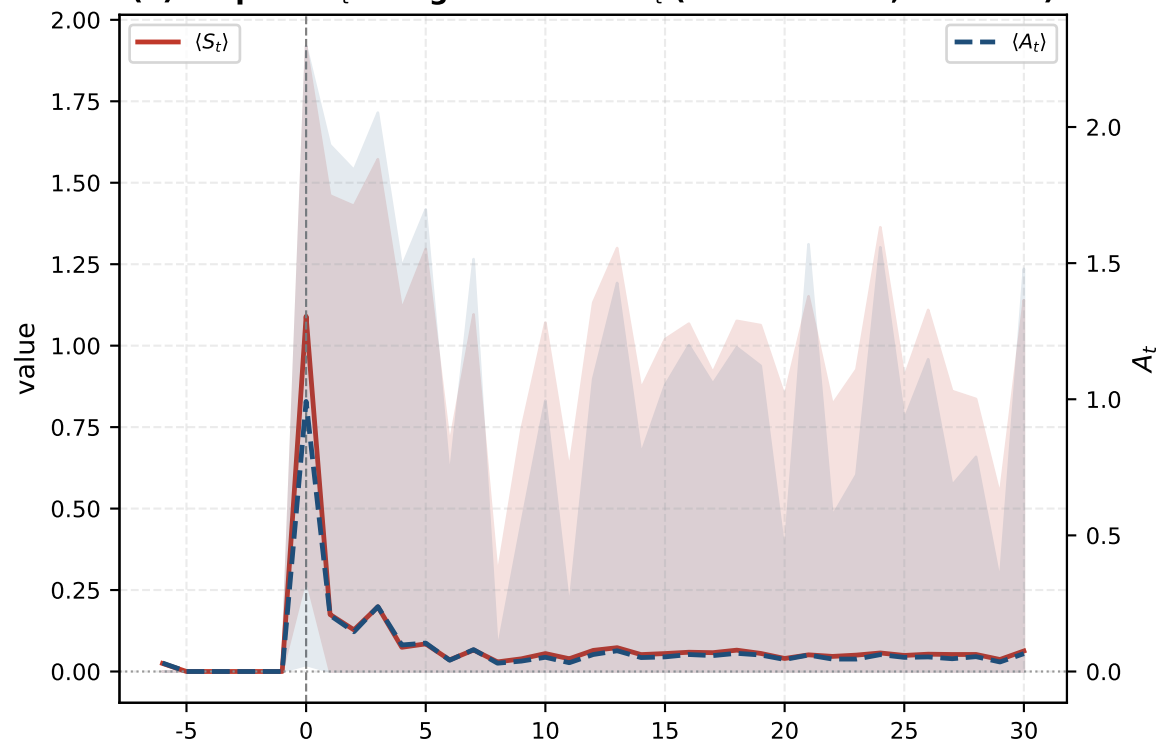

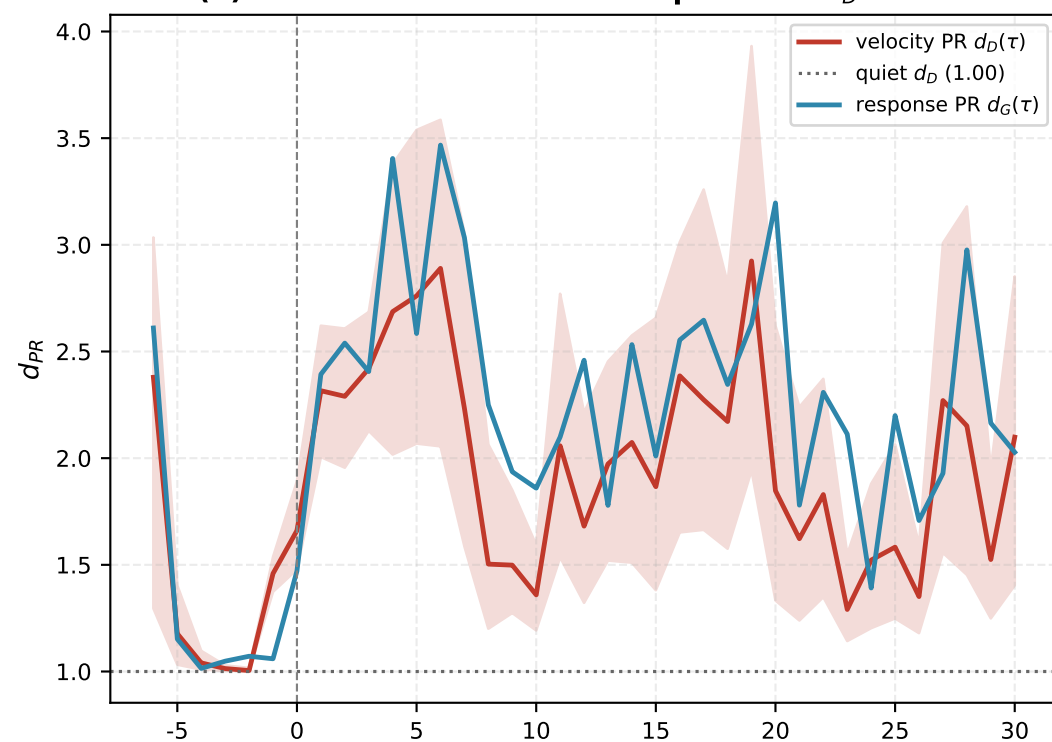

fig24 - Event-locked response geometry, Full TAN (zF)

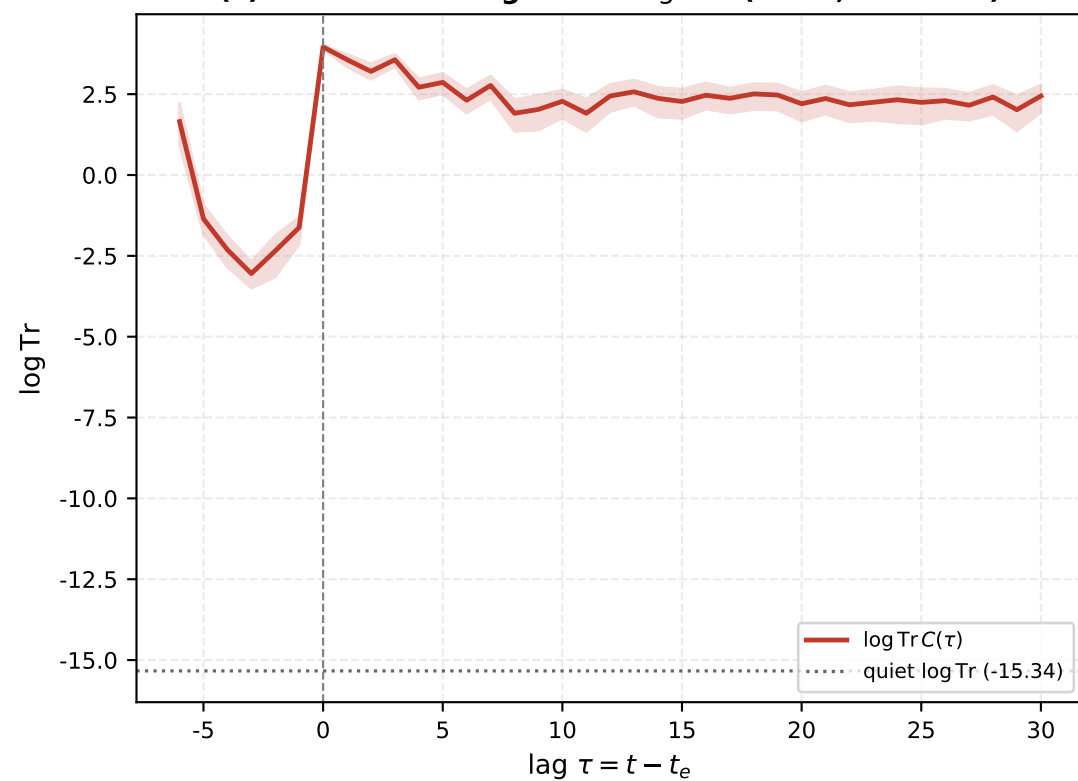

(a) surprise S_t and gate current A_t (event-locked, Full TAN)

(b) effective rank of event responses: $\Delta d_D = 1.09$

(c) fluctuation magnitude $\log \text{Tr} C$ (scale, PR-blind)

(d) event vs quiet eigenvalue spectrum (B4, zF)
